Ayer's Sarsaparilla, FOR PURIFYING THE BLOOD.

The reputation this excellent inedicine enjoys, is derived from its enrea, many of which are truly marvellous. Inveteration cases, where the system case, where

Ment Disease, Fits, Enferney, Neuroland, and the various Licerons affections of the muscular and nervous systems.

Syphilis or Fenereal and Mercurial Diseases are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. Leucorrhea or Whites, Uterine Uterations, and Female Diseases, are commonly soon relieved and ultimately cured by its purifying and invisorating effect. Minute Directions, and Female Diseases, are compelied graits. Rheumatism and Goat, when caused by accumulations of extraneous uniters in the blood, yield quickly to it, as also Liver Complaints, Torpidity, Congestion or Infamation of the Liver, and Jaundice, when arising, as they often do, from the ranking poisons in the blood. This SARSAPARILLA is a great restorer for the strength and vigor of the system. Those who are Languid and Listoss, Despondent, Steepless, and troubled with Aerons Apsymptomatic of Weateness, will find immediate relief and convincing evidence of its restorative powerupon trial.

they may be taken with safety by any body. Their sugar conting preserves them ever fresh and makes them pleasant to take, while being purely vegetable to harm can arise from their use in any quantity.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action — remove the obstructions of the stomach, bowdes, liver, and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangment as are the first origin of disease.

Minute directions are given in the wrapper on the box, for the following complaints, which these Pills rapidly cure:—

the box, for me incomes concentration, Listless, Pills rupidly cure!—
For Byspepsia or Indigestion, Listless, Zess, Languor and Loss of Appetite, they should be taken moderately to stimulate the stonget and respectively to the stonget of the ston dictionsly taken for each case, the distinctions which cause it, action or remove the obstructions which cause it.

For Dysentery or Diarrhoea, but one mild

does is generally required.

For Rheumatism, Gout, Gravel, Palpitation of the Heart, Pain in the Side,

Buck and Loins, they should be continuously
taken, as required, to change the diseased action of
the system. With such change those complaints

the system. With such change those companing disappear.

For Dropay and Dropaical Swellings they should be taken in large and frequent doses to produce the effect of a drastic purge.

For Suppression a large dose should be taken as it produces the desired effect by sympathy. As a Dimer Pill, take one or two Pills to promote digestion and relieve the stomach.

An occasional dose stimulates the stomach and howels into healthy action, restores the appetite and invigorates the system. Hence it is often advantageous where no serious derangement exists. One who for it, polerably well, other hinds that a dose of those Pills makes him feel deardedly better, from their cleansing and renovating effect on the digestive apparatus.

with the gloss and freshness of youth. Thin hair is thickened, falling hair checked, and baldened, falling hair checked, and baldness often, though not always, cured by its use. Nothing can restore the hair where the follicles are destroyed, or the glands atrophied and decayed. But such as remain can be saved for usefulness by this application. Instead of fouling the hair with a pasty sediment, it will keep it clean and vigorous. Its occasional use will prevent the hair from turning gray or falling off, and consequently prevent baldness. Free from those deleterious substances which make some preparations dangerous and make some preparations dangerous and injurious to the hair, the Vigor can only benefit but not harm it. If wanted

HOUSES TO LET.

The Judiciary. Having, in a previous article, pointed out the anomalous and unsatisfactory condition of the Judiciary of the Colony, we propose now to address ourselves to the subject of reconstruction, with a view to amendment. And first of all, we must have lawyers for our County Court Judges. Gentlemen, however unexceptional in every other respect, destitute of legal education and experience will not do. They lack the special fitness for the position; and, wanting in this one thing, the public interest demands that the scales of justice shall be placed in the hands of men learned in the law. And, whatever may have been the case at an earlier stage of the Colony's history, it cannot be denied that we have now in the legal profession men equal in every other respect to the present County Court Judges, besides possessing the one thing needful-a legal mind,-from which to choose. Perhaps very few persons outside of the legal profession are aware of the inexplicable muddle in which the law under which our County Courts are administered really is. The truth is, no one but a lawyer can have the least chance of finding his way through the labyrinthine mazes of the County Court law. The ordinary reader would soon become mystified by sections of Acts, old and new, repealed and unrepealed, either in whole or in part. Some of these Acts are repealed in part, and frequently a highly unintelligible clause is inserted in local Ordinances to the effeet that so much of a certain Act as is applicable to the Colony shall be in f. ree! Without exception, the Acts introduced are English, to which no one but a lawyer is likely to have access, and even if they had, the insurmountable difficulty would still present itself as to what portions are applicable to the Colony and what portions are not. In making this change an opportunity will be presented for reducing the number of County Court Judges throughout the Colony to meet the requirements of the times. It will be readily admitted that a skilful and trained Judge may easily get through more work and do it better than two who are unskilled in the law Tor instance, one Judge, with his head-quarters at New Westminster, could, with the assistance of the Chief Justice, do the whole of the County Court work on the Island and on the mainland as far as Clinton. In the same way another Judge could well do the work in Cariboo, assuming, of course, all the functions of Gold Commissioner. Kootenay forms a district so distinct, and, at the present, so difficult of access, and moreover, its wants are as yet so purely those falling within the legitimate scope of the functions of a Gold Commissioner, that we would make no change in that direction just now. If however, it were deemed necessary for the sake of uniformity that the whole Colony should be at once embraced within the scope of the new system a County Court Judge might be appoint-County Court Judge might be appointed for the Southern section of the Colony, who could made himself generally useful in that new and unorganized rejion. Here, then, we would have two County Court Judges learned in the law; the one resident in New Westminster, making periodical visits to all the different points of importance within his circuit and holding Court as often as the interests of the country demands; the other residing at Barkerville, visiting Quesnelmouth, Soda Creek and some of the more important mining camps of Cariboo. These Judges should camps of Cariboo. These Judges should occupy positions in every respect as independent as that of the Judges of the Supreme Court. We do not speak of independence in declaring and administering the law. The controlling power of a superior jurisdiction is at all times wholesome check; but we allude to their tenure of office. They should, like the Supreme Judges, hold office during most declaring and not be subjected. good behaviour, and not be subjected either to dismissal or suspension except under such circums tily the removal or suspension of one of the other Judges. The scheme we have been sketching would guarantee to the county a proper administration of good law in the County Courts. We would still have gentlemen and men of cuucation as the present incumbents are; but, in addition to that, we would have men whose legal erudition and experience would enable them to do credit to the Courts in which they would preside, and give tone to the administration of the law. These Judges could, more-over, act as Chairmen of Quarter Sesover, act as Courted to Quarter Sessions, Courts greatly demanded by the country. To these Courts, which would consist of a Chairman and the other Justices then assembled, appeals would lie against decisions of Magistrates. But these County Court Judges would supply majorial out of which to construct a Court of Appeal; and this will, perhaps, be esteemed the greatest book of all. The Judges, under what name you please, could, together with one or more Supreme Court Judges,

San Francisco Captialist.

San Francisco Capitalist.

Editor British Colonist.—In your Sunday morning's issue I find in an item under the heading of "Baynes Sound Coal Mine," in which you say, "It is a pity that no arrangement was made with the San Francisco Capitalist, Mr. Birmingham, who recently bought a controlling interest in the Company. Mr. Birmingham departed for San Francisco much disgusted with the fruitless result of the negotiation, &c.

Permit me to say, Sir, that, your informant is much better informed on the subject than members of the Baynes Sound Coal Co. or else he is very much in error. When Mr. Birmingham was approached by members of the Company on the subject of working the mines, he disclaimed having any personal interest in the property, and said that he did not visit the mines on his own account, but at the instance of some friends at San Francisco, and that he was not authorised to speak of their intentions. So that however desirable it might have been, there was no possibility of a "negotiation" with Mr. Birmingham.

A Member of The Company, Mr. Birmingham.
A MEMBER OF THE COMPANY,

A favourable impression has been created by the announcement that the French Government has decided to dismiss the classes of soldiers whose service expires in 1869 and 1870, and to grant unlimited furlough to the second portion of the class whose term of service ends in 1871 and 1872. These measures are about equivalent to the dismissal of 50,000 men from the army. This is looked upon as a practical proof of the Emperor's desire for peace, and the French funds have risen in consethe French lands have risen in consequence. According to the Patrie, great reforms also are about to be grauted, amongst others the right of Parliamentary initiative is to be accorded to the Chamber, and "orders of the day" are to be permitted. We shall probably be able to exactly registrate to the French registrate as able to speak positively as to the Emperor's real intentions in our next issue.

Anglican Church Address.

A deputation of the Church of England waited on the Governor yesterday morning with the following address:

To His Excellency Anthony Musgrave, Gov-ernor of British Columbia, &c., &c., We, the undersigned Ministers of the Church of England in this Colony, congra-

the tendency on your safe arrival at the seat of your Government.

Sensible of the bonefits we enjoy under the protection and laws of our native land, we assure your Excellency of our sincere and loyal attachment to your person and office, as the representative of our Gracious Sovereiro.

Sovereign.

Knowing how arduous and full of care must be the work of your administration, we hope, with our flocks, continually to offer our supplications that you may be guided and defended from above; and that all perils of faction, invasion and other misfortunes being removed, you may be enabled to preserve the people committed to your charge in health, neace and godiness. Sovereign.

in health, pence and goddiness.

We add, dear Sir, the heartfelt wish and
prayer, in which we doubt not our brethren
in distant parts of this mission field would

gladly unite, that you with your family may long enjoy in this pleasan land an abundant measure of health and happiness.

E CRIDER, B. A., Dean of the Cathedral, Victoria, CT WOODS, M. A., Archdeacon of Columbia, WS REECE, M. A., Archdeacon of Vancouver, P. JENNS, Rector of St. John's, Victoria, F. B. Gilbeell, P. H. His Excellency read the following reply:

GENTLEMEN,—I am grateful to you for your address and congratulations on my safe arrival at the seat of Government.

arrival at the seat of Government.

It will be a source of comfort for me to know that the members of the Church in which I was born and have been matured, and to which I am personally attached, will afford me their prayers that I may be guided and governed by the goodness and wisdom of the Almighty in the performance of the duties which I desire to discharge in the the consciousness of my responsibility to Him And I thank you much for expression of your kind wishes for the health and happiness of myself and my family.

NAVAL PROMOTIONS .- By the death of Vice Admiral G. H. Seymour the following promotions on the active list will take place: -Rear-Admiral G. G. Weilesley, C. B., late Admiral Superintendent of Portsmouth Dock-yard, and is now on his voyage to Halifax to relieve Sir George Rodney Mundy as commander-in-chief of the North American and West India station, will be alvanced to the rank of vice-admiral; and Captain James F. B. Wainwright, captain-superintendant of the naval yard at Bermuda will obtain his flag rank. By Captain Wainwright's promotion a good service pension will be placed at the disposal of the First Lord of the Admiralty, the command of the floating battery Terror will tecome vacant, as well as the superintendentship of the Naval Hospital Dock d vitualling yards at Bermuda. By the death of Vice-Admiral G. H. Seymour C. B., also rear-admiral, the Hon. G. F. Hastings, C. B., commander-in-chief of the Pacific station, becomes senior rear-admiral; and Captain James N. Strange arrives at the top of the list of captains, and, on the vacancies occurring, will be advanced to the next steps of vice and rear-admiral respectively.

NEARLY A SERIOUS ACCIDENT, -While the steamer Eliza Anderson was on her way up Sound on Wednesday evening, an accident, which might have been attended with fatal consequences, happened to one of the passengers. It appears that a number of young ladies were amusing themselves, and one of them (Miss O'Dwyer) having obtained from the steward of the boat a pistol, which had been lying around, no one imagining it was loaded, thoughtlessly pulled the trigger and discharged the weapon. The ball struck Mrs. McGee (widow of the late Mr. M. Mo-Gee of Victoria) in the forehead, and then glanced off, inflicting a slight flesh wound. A medical gentleman being on board, immediately tendered his services, and fortunately found that the wound was not serious .-Seattle Intelligencer.

THE LEVIATHAN will be sold! This is good news and as reliable as it is good. The expensive toy will be improved off the face of these waters,—and it is about time. It has cost more, doilar for dollar, to "run" the animal than it would have cost to capture a school of leviathans, or to have built the much-needed road from New Westminster to Burrard lulet. Now that the little monater is to be disposed of, suppose that big monster-the Island Elephant yelept the dredger-be taken in hand. Shanghae wants such an animal. Suppose we let he have it-cheap?

A NEW INTERNATIONAL EXHIBTION .- Mr. Thornton, the British Minister, has announced to the American Government that an International Exhibtion of the products of workmen's labour is to be held in London in 1870 and that he has been instructed to make it known to the people of the United States. The Government has accordingly communicated the fact to the public, and from the announcements already made it is probable that the American contributions to the Exhi bition will be extensive.

THE SALE OF CUBA. -The friendly advice of the Times to sell Cuba does not seem to be received very cheerfully by the Spaniards. They cherish that island not only as a feeding ground to which patriots may be sent for sustenance, but as a market for goods which in fair competition with those of other countries, could never hold their own. To Barcelone, for instance the market of the Antilles is of overwhelming importance; its loss pastures. would involve a decline in the city's mercan-

FROM PUGET SOUND .- The Wilson G. Hunt arrived at 5 o'clock last evening from Puget Sound. We are indebted to Mesars Myrick and Butler for late files, etc.

ACTIVE OPERATIONS. - Mr Titus goes out ed late and cool weather has been of to-day to put the Cowichan road in order. Mr Mohun starts to-day for Burrard Inlet to survey the timber reserves; and another surveyor will start immediately for Baynes Sound to look after the coal reserves. The money voted for road improvement and general surveying purposes will, we learn, be expended in the direction intended at once.

NEW YORK, August 27.—The Oxfords won the race by three lengths or six seconds.

CHICAGO, August 27 .- Private disatches received at New York by the French cable, contradict the report of the roat race, and state that the Harvards, instead of the Oxfords, won the race by three lengths. This, however, is not generally oredited.

New York, August 27-The result of the boat-race was received at the Arsociated Press office in this city, just tventy-three minutes and one-third of a second after the Oxfords arrived at Mortlake. The messenger was obliged to carry the dispatch three-fourths of a mile on horse-back to the nearest tele-

Lisbon, Aug. 22.—The mail steamer from Rio has arrived with dates to the 28th of July. President Lopez was at Assura and had plenty of provisions, but was short of arms and ammunition. The allied army had captured Villa Rica, and were preparing to storm Assura. Barrecco was likely to become President at Assumeion of Paraguay.
PARIA, Aug 23.—The Journal official-

ly publishes an imperial decree appointsing Gen. Lebouf Minister of War to succeed Marshal Neil, deceased.

The French officials have arrested five more Carlist chiefs on the Spanish frontier. London, Aug. 20-The weather con-

tinues favorable; crops are being gathered in good condition. The London Rowing Club gives a

banquet on Monday evening to the gontlemen forming the Harvard and Oxford craws.
The London Times' editorial on the

prospect of prices of grain, says we may lood for a year of sufficiency if not of abundance. The harvest is within 13 per cent. of average, and with a continuance of the present weather may still improve. All the crops except wheat are luxuriant and with good corn imported and sold under fifty shillings per quarter, we can easily afford to lose a little home grown wheat for the sake of a plentiful stock of food and better A new telegraphic cable on Variey's

principles is projected from Ireland to America.

A mass of details, as to the condition and promise of the growing grain crops, has been published. It seems to be the general impression that the continu-

immense service to the country. Much of the corn is already gathered, and with another fortnight like the past the crisis of the harvest will be over The copions rains which fell some time ago, though they delayed, did not damage the corn. The fovorable change in the weather stopped the advance in corn, but great fluctuations are still expected, as the crops throughout Europe, with the exception of the interior of Russia, promise to be light.

China.

Hongkong, Aug. 3, via London, Aug. 26-The Pekin Government refuses to ratify the convention concluded by Burlingame and the Chinese Embassy vith the United States. The Chinese text of Eurlingame's oreden-tials differs from the foreign version. In the former he is appointed Envoy of China to tributary.

Cuba.

Washington, August 33-Cuban advices are to August 19th. The volun-teers are exhibiting the purpose of their organization: that of seizing the Government of the Island of Cuba from Spain. Everywhere, throughout the Island, the volunteers and the Junta are acting in concert with the Argutare acting in concert with the Argut-iamento at Havana, and exercise the same control of DeRoda that expelled Dulce from this position. It is reported that DeRoda contemplates resigning and returning to Spain, believing a longer continuance in his present position would detract from his well-earn-

It is asserted on good authority that the preliminaries of a treaty for the cession of Cuba, has been signed.

The Herald's Havana special of 19th August, states that intelligence from

Catalona on Tuesday reports that 10,-000 insurgents had appeared in that vicinity. But few troops were in the District and the Governor was unable to check the patriots, who are destroying all property owned by Spaniards.

SUMMIT, Aug. 25, 11 A. M.—The mowsheds on the railroad five miles West of the station, caught fire last night. Dispatches say two miles of the shed and nearly all the ties for that distance are destroyed. The fire burn-ed as long as there was any shedding to feed it west until it reached a space without sheds. The road will be repaired by to-morrow in time for the trains East and West. Passengers baggage and the mails will be transferred the break this afternoon and landed in Sacramento to-night. The passengers and mails will also go on

After many days consumed in careful experiments—
into which we freely bestowed, because of the great
interest felt in the question both by the competing parties and the usb ic—and after care ful commar-son of the
rean is obtained, we found that a I the powder submitred to test was of excel ent quality. We also found that
the superiority, on the whole, rested with the California
Powder Works, and therefore recommend an aw'rd of a

DR. J. COLLIS BROWNE'S CHICORONNE is the best and most certain romedy in Coughs, Colds, Asthma, Consumption, Nourakira, Rheumatism, etc.

DR. J. COLLIS BROWNE'S GHLORODYNE—Extract from the Genoral Board of Health, London as to its efficacy in choica. "So strongly are we coavineed of the immense value of this remedy that we coatinot for forming the necessity of apopting it is all cases."

From A. Molikomery, Eq., inte Inspector of Hospitals, Bombay. "Chlorodyne is a most valuable remedy in Neuralgia, asthma and Dy-entery. To it I fairly owe my restoration to health after eighteen months' severe suffering and when all other medicines had failed."

It is necessary to want the public against spurious institutions, which only hear the pirated rame, and are deficient of the true properties of the only gonjine, visit pic, J.
